

Dilation as easy as 1, 2, 3, by NNECP!

Depending on the regimen, some pre-op procedures require the administration of up to 5 different ophthalmic medications. The PCAB-Accredited staff at NNECP can compound customized combinations of these medications to reduce the number of administrations. Some of our popular preservative free preparations include:

Tropicamide 1%
Cyclopentolate 1%
Phenylephrine 2.5%
*solution or viscous

Tropicamide 1%
Cyclopentolate 1%
Phenylephrine 2.5%
Ketorolac 0.5%

Tropicamide 1%
Cyclopentolate 1%
Phenylephrine 10%
Ketorolac 0.5%

Tropicamide 1%
Cyclopentolate 1%
Phenylephrine 2.5%
Tetracaine 0.25%

We can formulate these in small volume unit of use containers and customized formulas to meet the unique needs of your patients.

Northern New England Compounding Pharmacy (NNECP) is the first and only pharmacy in New England to earn accreditation for sterile compounding by the Pharmacy Compounding Accreditation Board (PCAB). The PCAB accreditation means that NNECP exceeds the highest quality and safety standards in the profession. **The American Medical Association is now encouraging all state boards of pharmacy to require compounding pharmacies to obtain the PCAB Seal of Accreditation.**
